## Electromagnetic Brain Weapon Without Implant Or Nano Implant

I have taken my head by **X-Ray**. X-Ray doctor said to me that my head does not have **implant, microchip or nano implant**. Please kindly look the X-Ray taken results as the bellowing photos.

**Some information of Electromagnetic Brain  
Weapon of General Bureau of Military  
Intelligence (belongs to Ministry of Defense of  
Vietnam government):**

**Detecting EMF Fields in Humans for Surveillance**

A subject's bioelectric field can be remotely detected, so subjects can be monitored anywhere they are. With special EMF equipment General Bureau of Military Intelligence cryptologists can remotely read evoked potentials (from EEGs). These can be decoded into a person's brain-states and thoughts. The subject is then perfectly monitored from a distance.

General Bureau of Military Intelligence personnel can dial up any individual in the country on the Signals Intelligence EMF scanning network and the General Bureau of Military Intelligence's computers will then pinpoint and track that person 24 hours-a-day. The General Bureau of Military Intelligence can pick out and track anyone in Vietnam.

**General Bureau of Military Intelligence Signals Intelligence  
Use of EMF Brain Stimulation**

General Bureau of Military Intelligence Signals Intelligence uses EMF Brain Stimulation for Remote Neural Monitoring (RNM) and Electronic Brain Link (EBL). EMF Brain Stimulation has been in development since the MKUltra program of the early 1950's, which included neurological research into "radiation" (non-ionizing EMF) and bioelectric research and development. The resulting secret technology is categorized at the National Security Archives as "Radiation

Intelligence," defined as "information from unintentionally emanated electromagnetic waves in the environment, not including radioactivity or nuclear detonation."

Signals Intelligence implemented and kept this technology secret in the same manner as other electronic warfare programs of Vietnam government. The General Bureau of Military Intelligence monitors available information about this technology and withholds scientific research from the public. There are also international intelligence agency agreements to keep this technology secret.

The General Bureau of Military Intelligence has proprietary electronic equipment that analyzes electrical activity in humans from a distance. General Bureau of Military Intelligence computer- generated brain mapping can continuously monitor all the electrical activity in die brain continuously. The General Bureau of Military Intelligence records aid decodes individual brain maps (of hundreds of thousands of persons) for national security purposes. EMF Brain Stimulation is also secretly used by the military for Brain-to-computer link. (In military fighter aircraft, for example.)

For electronic surveillance purposes electrical activity in the speech center of the brain can be translated into the subject's verbal thoughts. RNM can send encoded signals to the brain's auditory cortex thus allowing audio communication direct to the brain (bypassing the ears). General Bureau of Military Intelligence operatives can use this to covertly debilitate subjects by simulating auditory hallucinations characteristic of paranoid schizophrenia.

Without any contact with the subject, Remote Neural Monitoring can map out electrical activity from the visual cortex of a subject's brain and show images from the subject's brain on a video monitor. General Bureau of Military Intelligence operatives see what the surveillance subject's eyes are seeing. Visual memory can also be seen. RNM can send images direct to the visual cortex. bypassing the eyes and optic nerves. General Bureau of Military Intelligence operatives can use this to surreptitiously put images in a surveillance subject's brain while they are in R.E.M. sleep for brain-programming purposes.

**An example of EMF Brain Stimulation**

Table 1

Brain Area	Bioelectric Resonance Frequency
------------	---------------------------------

Motor Control Cortex	10 Hz	Mc
Auditory Cortex	15 Hz	Sou
Visual Cortex	25 Hz	Im.
Somatosensory	9 Hz	Phi
Thought Center	20 Hz	Im

As my daily recording of torture on Twitter

(<https://twitter.com/khanhpham65>), Vietnam government has joined The Universal Declaration of Human Rights of the United Nations, Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (CAT); International Convention on the Elimination of All Forms of Racial Discrimination but General Bureau of Military Intelligence of Vietnam government still tortures me brutally (brain pain, skull pain, mental pain, body pain, bone pain, my legs bone is sunken but the outer skins are not scratched all over, back pain, skin itchy, burned skin, tooth pain, red eyes, mental crazy, logic torture, biological brain data manipulation, sexual violation, etc) by electromagnetic weapon including above electromagnetic brain weapon. General Bureau of Military Intelligence of Vietnam government does remote brain manipulation, does brain cortexes manipulation and remote behavior control/suppress of thought; does motor cortex manipulation, does brain memory erasing/washing and violates Article 1 of Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (CAT); Articles 1 and 5 of International Convention on the Elimination of All Forms of Racial Discrimination, Human Rights, Rome Statute of International Criminal Court of the United Nations.
